

Public versus Private

County Settlement-Republic state Settlement and Republic of the united States of America

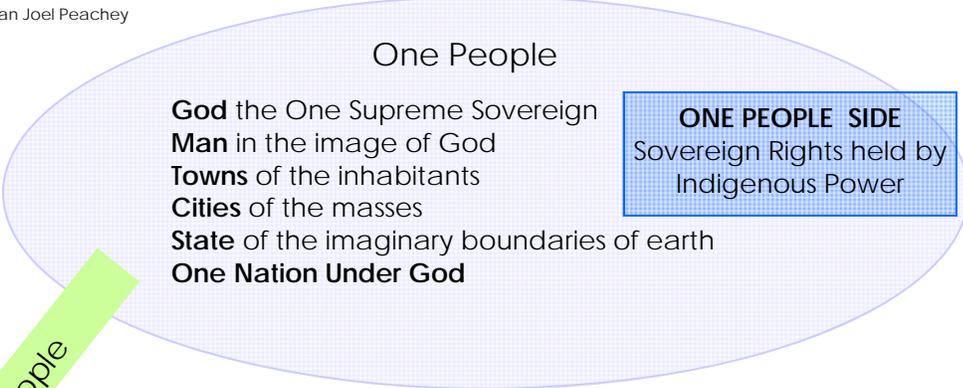

By Nathan Joel Peachey

In Republic

A true Republic is people with certain Sovereign Rights held by Indigenous Power mutually pledged together for common.

Constitution

A Constitution is delegation of certain Sovereign Rights as surrogate power (law) to be exercised by officers to insure domestic Tranquility, common Defence and secure the blessings of Liberty for the Republic.

GOVERNMENT SIDE

Delegated Surrogate Power

By Constitution

President
Legislative Branch
Executive Branch
Judicial Branch
Departments
Agencies
= **it's the law**

Lawyers
Courts
Trial Juries
Judges
Bailliffs
Sheriffs
enforcement =

Article IV Section 4

"The United States shall guarantee to every State in this Union a Republican Form of Government."

The Government is to provide lawful and orderly enforcement to punish the evil and protect the good.

Point of Fact

An offender who doesn't exercise Sovereign Rights remedy in Republic on the private side is subject by Grand Jury to the public law side for justice.

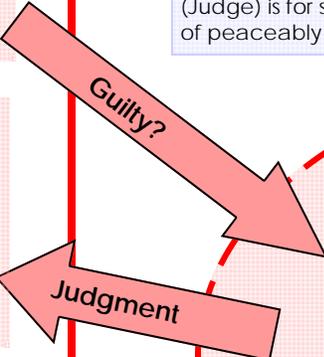

In Republic the private side operates by ONE (1) RULE

Rule # One(1) **DO UNTO OTHERS AS YOU WOULD HAVE DONE TO YOU.**

There are many authority structures in Republic; private people side. Man+wife family unit; school teacher and children; farmers; private business structures. All men are created equal; therefore in Republic NO ONE is superior; other then how men agree amongst each other in working together privately; to accomplish important things. Since all are equal, none is superior; therefore you can't have a judge exercising court proceedings over you with Supreme Authority if all men are created equal and none Supreme.

Resolution is the only remedy in Republic for private matters. If issues cannot be resolved; it has to be **submitted; be yielded; to be lowered** to an inferior court on the public side jurisdiction; to where both parties have standing; in that they both delegated power of Sovereign Rights to be exercised by elected offices in Republic as surrogate power.

Submitting a matter to an inferior court under the jurisdiction of another human being (Judge) is for situations where it was not possible to exercise the Sovereign Right remedy of peaceably resolving your own issues among one another privately; in Republic.

De Jure Grand Juries

The Grand Juries sometimes known as the 4th arm of government function; guarding delegated power from being misused against the private people that delegated power by Constitution to the public side for the first 3 branches of Constitutional government.

Two(2) Purposes

- (1)Guarding their delegated power from inverting into a democracy; to where surrogate power is exercised as SUPREME POWER over the people; instead of delegated surrogate power for the people.
- (2)Submit; yield private real injury and damage into the public venue for justice where the offender has failed to exercise his Sovereign remedy in the private side.

It is not possible to have a workable government structure that does not evolve into a democratic tyranny; unless Sovereign Rights remedy in Republic on the private side **cannot** ever be overturned by the power delegated to the body government in the public.

There must always be a remedy in Republic in the private; for those that want to exercise Sovereign remedy rather then having issues submitted to an inferior public court. Exercising Sovereign Rights held by Indigenous Power in Republic for resolving problems is important so the issue need not be submitted; yielded and lowered to a court of law for justice.
